LINKEDIN | PORTFOLIO | GITHUB

OBJECTIVE

To obtain a position in a reputable organization that provides a positive and growth-oriented environment, where I can learn emerging technologies and apply them effectively to contribute to business success.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech.	Silicon University	8.62 (Current)	2021-Present
Senior Secondary	St. Xavier's High School, Khandagiri	94%	2021
Secondary	St. Xavier's High School, Khandagiri	93%	2019

TRAININGS

SAP ABAP   EME
- Successfully completed hands-on training in SAP ABAP and gained practical skills in ABAP programming including Data Dictionary, Reports, OOP concepts and also certified in ABAP Cloud.

PWC CLOUD LAUNCHPAD PROGRAM   PwC Acceleration Centers
- Completed the PwC Cloud Launchpad Program, gaining hands-on experience across key cloud and web technologies. Successfully earned all associated micro-certifications during the training.

FULL STACK WITH DJANGO   Silicon University
- Successfully completed training in Django, gaining hands-on experience in building full-stack web applications. Learned key concepts like models, views, templates, authentication, and real-time features.

PROJECTS

RAP-BASED EMPLOYEE MANAGEMENT   March-April 2025
- Developed a full RAP (Restful ABAP Programming) application including data modeling, metadata extension, behavior definition, and service binding.
- Successfully exposed the application as an OData V4 service and integrated it with a Fiori Elements-based user interface

MEDINTEL – AI BASED HEALTHCARE AND PREDICTION [GITHUB LINK]   Jan-April 2025
- MedIntel is a smart healthcare platform where patients can get AI-based symptom diagnosis, book doctor appointments, receive prescriptions, and chat with doctors in real-time — all in one place
.

JOB PORTAL [GITHUB LINK]   June 2024
- Built a full-featured Job Portal using the MERN stack, offering secure authentication and role-based access for admins and job seekers. Job seekers can filter, search, and apply for jobs, while admins manage and track applications.
